

#### PROJECTS

The AfricaJack Foundation maintains several projects throughout the sub-Saharan African Region. One successful project was the completion of the Learning Center (pictured above). This center will hold computer and other vocational training at an orphanage in Zimbabwe.

#### PARTNERSHIPS

Through the AfricaJack Foundation Partnership Program, we bring the resources together to meet the needs of the children and families. Current partnerships have given back to the farmers, community members, urban and rural HIV Clinics, and programs that help the staff workers at each location.

#### MAGICAL EVENTS & CONNECTIONS

Subscribe to the e-newsletter to hear about the magical events throughout the year which help make each of these connections happen.

#### MISSION

To better the lives of children affected by the HIV/AIDS pandemic in Africa through magical events and connections.

#### VISION

We hope through magical events and connections we can fund learning centers to teach necessary skills to help support families & commerce.

We believe with proper nutrition, medical treatments and compassion of friends from all over the world, these children can survive and live prosperous lives. One of those kids will graduate from college and start a business. One may become the next leader and economic world power. One may even become a scientist, who develops the model to beat this disease.

We know that through partnerships of like-minded NGOs and corporation working in Africa, we WILL make a difference!

One child at a time.

# AFRICA JACK

## FOUNDATION

A 501(C)(3) CHARITABLE ORGANIZATION

❁ OAKLAND, CA ❁

Bettering the lives of children affected by the AIDS pandemic in Africa

...through connecting magic!

# ...helping one child at a time.

## EVERY PENNY GOES TO THE CHILDREN

At the AfricaJack Foundation, administrative and overhead costs are covered by grants. Your donations and contributions, unless otherwise stated, goes directly into the Programs Fund.

Children will get their medication needed to be healthy. Farmers receive more supplies and seeds. More importantly they receive higher profits for their hard work.

Infrastructure Programs are able to continue. Buildings are needed at schools and orphanages. Clinics need to expand to meet the demand of the high infection rate and increased treatments.

## HOW CAN I HELP FROM HALFWAY AROUND THE WORLD?

There are a variety of ways to help. We are always accepting donations. However, volunteering your time and expertise are also very welcomed.

Supporters have hosted cocktail parties to raise awareness and funds for AfricaJack.

Youth groups have held car washes, garage sales, craft and art shows, bake sales, or clothing drives. It's amazing to see the enthusiasm of our youth helping out.

Please visit our website at [www.africajack.com](http://www.africajack.com) to see other events and ideas.

*"I am more grateful to the People who assist and help because they believe in what you say, that there are people in Africa who need them. Do you realize that the world needs more generous people like you who have the energy."*

*Faith C., Zimbabwe*

## FACES, SMILES AND LAUGHTER

*"It was amazing to me while I was at the orphanage. The children ran up to me, grabbed my hands and wanted to walk with me. Each one of them grabbing one finger."*

*The time I spent with the children truly was magical and I don't know if I will ever be able to explain it in words.*

*When I see the pictures, I can hear the laughs and it makes my eyes water."*

*J. Miller, Executive Director*
